## Annual Review 2013

*We Value Your  
Business*

# VALUE AND SERVICE ARE AT THE HEART OF OUR BUSINESS

## AVC Ltd

AVC had a busy 2013, starting in Colombia in January, finishing in Trinidad in December with numerous Countries in between including Australia, Belgium, South Korea, Sudan, Thailand and USA.

Valuations of interest included numerous steam and power stations in South Korea, offshore facilities in Canada and Myanmar, petrochemical plants in Texas and even luxury hotels in Europe and USA

AVC launched a new product, in conjunction with a company called 74i Ltd, enabling us to supply an online interactive map with our Valuation. This replicates our valuation schedule and clearly identifies and marks the areas of the facility. This allows Clients, and their advisors, to visualise their risk, and to present information to shareholders and others in an innovative manner .

AVC attended Airmic again, this time with a new stand, which was very well received. We met many fascinating people, and were delighted to answer a range of interesting questions on valuations. We will be there once again in 2014.

**AVC VALUSOLV®**, our in-house cost estimating system has been benchmarked against actual losses, and we were within reasonable limits in all cases, which helped to ensure maximum settlement for our Clients.

## Our Aims

- To provide a prompt and tailored response to Clients
- To concentrate on the business requirements of our Clients
- To constantly review and update our services to give our Clients a wider and better choice
- To provide professional and cost effective services to our Clients
- To continue to provide the high quality of service that our Clients have come to expect from us
- To supply to our Clients a product that best suits their individual needs
